BRAKE CLEANER

Brake Cleaner spray is a high-performance cleaning solution designed to efficiently eradicate dirt, grime, brake dust, and contaminants from your vehicle's brake components.

Keeping your brakes clean is crucial for continuing ideal braking performance and safety.

Efficiently Cleans Dirt

High Penetrating Formulation

Grease Residue-free Cleaning

Part Number
150ml : **KBC150**
500ml : **KBC500**

DIRECTION FOR USE

- Ensure your vehicle is on a level surface and the brakes are cool.
- Remove the wheels to access the brake components.
- Spray the cleaner directly onto the brake rotors, calipers, and pads, focusing on heavily contaminated areas.
- Allow the cleaner to penetrate and dissolve contaminants for a few minutes.
- Use a clean cloth or brush to wipe away loosened dirt and residue.

Caution
It may cause severe eye injury, skin and airway irritation. Keep it away from heat, open flame, hot surface and other ignition source. Do not smoke while applying. Container may explode if heated in any manner; it consists compressed gases and solvents. Keep it protected against sunlight. Do not expose container to temperature above 50°C. If on skin or hair, take off all contaminated clothing, rinse skin with water. If in eye, rinse continuously with water for several minutes. In case of excessive inhalation, take the person to a naturally ventilated place. In case of intake, seek medical attention and carry along this pack.

THROTTLE BODY CLEANER

Throttle Body Cleaner has unique carbon release formulation that penetrates, loosen and flushes away varnishes, oil and gum deposits from throttle body assemblies. It leaves no residues on external surface. Reduces emission and improves milage for engines.

- **Cleans Dust, Dirt, Oil & Gum Deposits**
- **Suitable for Choke Valves, Choke Controls**
- **Cleans Fuel System and Disc Quickly Without Leaving a Film**
- **Removes Carbon Deposits Effectively from Throttle Body Assemblies**

Part Number

100ml : **KTBC100**

500ml : **KTBC500**

DIRECTION FOR USE

- **Applicable on following areas:** Throttle body, plate and assemblies. Carburetor, Choke valve, Fuel and Disc system.
- Shake well before use.
- Fix extension tube on nozzle.
- Spray on throttle body area and valve start engine on slow valve, throttle plate areas in air passages, air jets and seals of adjusting screws.
- Race engine slightly to flush away deposits and smooth out idle.

Caution

It may cause severe eye injury, skin and airway irritation. Keep it away from heat, open flame, hot surface and other ignition source. Do not smoke while applying. Container may explode if heated in any manner; it consists compressed gases and solvents. Keep it protected against sunlight. Do not expose container to temperature above 50°C. If on skin or hair, take off all contaminated clothing, rinse skin with water. If in eye, rinse continuously with water for several minutes. In case of excessive inhalation, take the person to a naturally ventilated place. In case of intake, seek medical attention and carry along this pack.

PREMIUM RUST OFF

Premium Rust Off has unique formulation which prevents and remove rust effortlessly with simultaneous lubrication. It has high penetration power which loosens rust effectively. It forms a protective layer over metal surface, providing resistance to rust and reducing friction.

- **Light Lubricant**
- **High Penetration**
- **Moisture Scavenging Action**
- **Effective Rust Removal and Protection**

Part Number
500ml : **KPRO500**

DIRECTION FOR USE

- Shake well before use.
- Attach extension tube to nozzle.
- Spray on rusted area and allow liquid to take action for 2–5 minutes.
- Wipe off excess liquid.

Caution
It may cause severe eye injury, skin and airway irritation. Keep it away from heat, open flame, hot surface and other ignition source. Do not smoke while applying. Container may explode if heated in any manner; it consists compressed gases and solvents. Keep it protected against sunlight. Do not expose container to temperature above 50°C. If on skin or hair, take off all contaminated clothing, rinse skin with water. If in eye, rinse continuously with water for several minutes. In case of excessive inhalation, take the person to a naturally ventilated place. In case of intake, seek medical attention and carry along this pack.

ELECTRIC CONTACT CLEANER

ECC is a specialized, non-conductive, and non-corrosive cleaner designed for safe, residue-free removal of dust, dirt, oil, and contaminants from electronic and electrical components. It is formulated for professional-grade cleaning in workshops and automotive applications, providing maintenance solutions to enhance component performance.

Non-Corrosive

Non-Conductive

Leaves no Residue

Part Number
500ml : **KECC500**

DIRECTION FOR USE

- Applications: Ideal for cleaning electrical and electronic parts, such as connectors, switches, and sensors.
- Usage: Used to maintain electrical reliability in automotive applications
- This cleaner ensures superior maintenance of electrical systems, similar to the high-performance standards of other TruPower products like lubricants.

Caution

It may cause severe eye injury, skin and airway irritation. Keep it away from heat, open flame, hot surface and other ignition source. Do not smoke while applying. Container may explode if heated in any manner; it consists compressed gases and solvents. Keep it protected against sunlight. Do not expose container to temperature above 50°C. If on skin or hair, take off all contaminated clothing, rinse skin with water. If in eye, rinse continuously with water for several minutes. In case of excessive inhalation, take the person to a naturally ventilated place. In case of intake, seek medical attention and carry along this pack.

DEGREASER HEAVY DUTY

Specialized heavy-duty cleaning agent designed to break down and remove oil, grease, grime, and stubborn deposits from engine components, undercarriages, wheels, and tools.

Efficiently Cleans Dirt

High Penetrating Formulation

Grease Residue-free Cleaning

Part Number

1 L : **KDG1-10-1000**

5 L : **KDG1-10-5000**

DIRECTION FOR USE

- Shake well before use.
- Clean the surface with vacuum or dry cloth to remove dust.
- Apply the cleaner over stained area, allow it to settle for a few seconds.
- Wash with high pressure washer.
- For stubborn stains, a second application is recommended if the first doesn't completely remove them.

NOTE

Store the product in cool and dry place, do not expose to direct sunlight. Do not apply on hot surface, wear appropriate safety equipment before use. Try the product on small area before full application to test color bleeding.

Caution

It may cause severe eye injury, skin and airway irritation. Keep it away from heat, open flame, hot surface and other ignition source. Do not smoke while applying. Container may explode if heated in any manner; it consists compressed gases and solvents. Keep it protected against sunlight. Do not expose container to temperature above 50°C. If on skin or hair, take off all contaminated clothing, rinse skin with water. If in eye, rinse continuously with water for several minutes. In case of excessive inhalation, take the person to a naturally ventilated place. In case of intake, seek medical attention and carry along this pack.
